---

Jewish Youth and adults alike have been energized and moved by Dan's songs influenced by Jewish themes. Dan's music has become a staple in the Jewish youth 'circle of songs.' Dan's work has been nationally recognized and he has been featured as an artist at Biennials and conventions. Dan and Eighteen's music is a collective experience that captures a mix of modern rock and Judaism.

It is our hope that all ages will participate in this special weekend as we have integrated all parts of our congregation into the program.
